

Engineering Solutions for the Strategic Gap Obsolescence Supply Chain DMSMS

Services

- Mobile Engineering Laboratory
- Prototype Integration Facility
- Value Added Engineering
- Reverse Engineering
- Remanufacturing Solutions
- Source Approval Request (SAR)
- Additive & Adaptive Manufacturing
- Lifecycle Sustainment
- Obsolescence Solutions
- DMSMS Management
- Legacy Replacement
- Program Management
- Data & Technical Packages

Supported Programs

Customers

Capabilities

- Refurbishment, Repair & Modernization
- R.O.P.E.© (Rapid Obsolescence Planning & Execution)
- 3D Scanning
- Obsolescence Resolution
- Engineering Analysis
- Analysis & Testing
- Mechanical Design
- Short-Run Manufacturing
- Remanufacture & Replace OEM Parts
- Innovative Contracting Vehicle Solutions
- TDP Evaluation & Completion
- Calibration & Validation
- First Article Inspection & Product Validation
- Advanced 3D Printing
